Section 8: Language Assistance Plan

Plan Components

As a recipient of federal US DOT funding, Elderly United of Springfield and Clark County/United Senior Services is required to take reasonable steps to ensure meaningful access to our programs and activities by limited-English proficient (LEP) persons.

Limited English Proficient (LEP) refers to persons for whom English is not their primary language and who have a limited ability to read, write, speak, or understand English. This includes those who have reported to the U.S. Census that they speak English less than very well, not well, or not at all.

Elderly United of Springfield and Clark County/United Senior Services's Language Assistance Plan includes the following elements:

- Item #1: The results of the *Four Factor Analysis*, including a description of the LEP population(s), served.
- Item #2: A description of how language assistance services are provided by language
- Item #3: A description of how LEP persons are informed of the availability of language assistance service
- Item #4: A description of how the language assistance plan is monitored and updated
- Item #5: A description of how employees are trained to provide language assistance to LEP persons

Four Factor Analysis Methodology

To determine if an individual is entitled to language assistance and what specific services are appropriate, Elderly United of Springfield and Clark County/United Senior Services has conducted a *Four Factor Analysis* of the following areas: 1) Limited-English Proficient (LEP) Speaker Demography, 2) Contact Frequency, 3) Importance of Service, and 4) Resources and Costs.

Factor 1: The number or proportion of LEP persons eligible to be served or likely to be encountered by the program or recipient. In addition to the number or proportion of LEP persons served, Elderly United of Springfield and Clark County/United Senior Services will identify:

- (a) How LEP persons interact with the recipient's agency;
- (b) Identification of LEP communities, and assessing the number or proportion of LEP persons from each language group to determine the appropriate language services for each language;
- (c) The literacy skills of LEP populations in their native languages, in order to determine whether translation of documents will be an effective practice; and
- (d) Whether LEP persons are underserved by the recipient due to language barriers.

Factor 2: The frequency with which LEP persons come into contact with the program: Identifies and assesses the frequency Elderly United of Springfield and Clark County/United Senior Services's staff comes into contact with LEP persons. Examples of contact could include:

- (a) Use of bus and rail service;
- (b) Purchase of tickets through vending machines, outlets, websites, and over the phone;
- (c) Participation in public meetings;
- (d) Customer service interactions;
- (e) Ridership surveys;
- (f) Operator surveys.

Factor 3: The nature and importance of the program, activity, or service provided by the program to people's lives. Generally speaking, the more important the program, the more frequent the contact and the likelihood that language services will be needed.

Factor 4: The resources available to the recipient for LEP outreach, as well as the costs associated with that outreach. Resource and cost issues can often be reduced by technological advances, reasonable business practices, and the sharing of language assistance materials and services among and between recipients, advocacy groups, LEP populations and Federal agencies. Large entities and those entities serving a significant number of LEP persons should ensure that their resource limitations are well substantiated before using this factor as a reason to limit language assistance.

Item #1 – Results of the Four Factor Analysis (including a description of the LEP population(s) served)

Factor 1: The number or proportion of LEP persons eligible to be served or likely to be encountered.

Of the 134610, residents in Elderly United of Springfield and Clark County/United Senior Services service area, #1963 residents describe themselves as speaking English less than "very well".
